Company Profile

AKTHERM

Aktherm Foreign Trade, based in Ümraniye, one of Istanbul's most dynamic districts is a well-established company specialized in **the heating, cooling and sanitary installation sectors**. Since our foundation, we have placed **quality, reliability and sustainability** at the core of our operations, aiming not only to supply products but also to deliver comprehensive and innovative solutions to our customers.

Today, we proudly export to **more than 30 countries** across Europe, the Middle East, Africa and Asia. With a strong global network, Aktherm develops high-performance solutions tailored to different climates, infrastructures and application conditions. Understanding local market needs and providing the most effective technical and logistical responses are among our core principles.

At Aktherm, we recognize that every project has its own unique requirements. Therefore, we offer **personalized solutions** and stand by our clients through every stage — from project design and product supply to logistics planning and after-sales technical support. We consider customer satisfaction not merely a goal, but an ongoing responsibility that defines our way of doing business.

Our position in the industry is strengthened not only by our export volume but also by our **reliability, technical expertise and solution-oriented approach**. Over the years, we have become a trusted supplier for many successful projects across diverse regions. The strong references we hold today are a testament to our commitment to uncompromising quality standards.

AENOR

Aktherm Foreign Trade continues to shape the industry with **durable, aesthetically refined and energy-efficient products**. Our range of heating, cooling, and sanitary systems is designed to deliver long-lasting performance and maximum safety, meeting the expectations of both professionals and end-users. Thanks to our innovative mindset, we constantly expand our product portfolio and adapt swiftly to the changing demands of global markets.

Our strength lies in our **experienced team, advanced technological infrastructure and deep sense of responsibility toward our customers**. As the Aktherm family, we believe that long-term partnerships are built on trust, transparency, and professionalism. These values guide every step we take in our business relationships.

The success we have achieved so far stems from our commitment to continuous improvement and our ability to adapt to evolving global conditions. Yet, we believe that true success is sustainable success. That is why we work with a forward-looking perspective — considering not only the needs of today but also the requirements of tomorrow.

With a vision focused on the future, Aktherm Foreign Trade continues to make a difference in the industry through **environmentally responsible, innovative and high-quality products** that align with the latest developments in technology and energy efficiency. Our goal is to help our customers achieve their objectives with ease and to establish long-lasting business partnerships built on mutual growth and trust.

At Aktherm **with our experience, technical expertise and global vision**, we remain committed to being not just a supplier — **but a reliable solution partner** for all our clients around the world.
